Greg Loeffelholz

AI Product & Platform Leader | Applied AI & Agentic Systems
Boston, MA | gloeff@gmail.com | 917-407-3833 | futureinsites.com/greg

SUMMARY

AI product and platform leader with 13 years of experience building and leading ML-driven decisioning, identity, automation, and enterprise data platforms, plus recent hands-on leadership of LLM, RAG, agentic, and conversational AI systems. At MotiveMetrics, led product, engineering, and data science teams operating a production agentic platform supporting more than $100MM in monthly client advertising spend, while owning ML lifecycle governance and company-wide SOC 2 certification. Previously led real-time ML decisioning and a 200MM+ consumer identity graph at Inmar Intelligence and ownerIQ, and managed cross-functional orgs of more than 50 people. Now builds governed RAG assistants and agentic workflows for enterprise clients.

AI AND PRODUCT CAPABILITIES

AI Product Strategy | Enterprise Platforms | Agentic and Conversational AI | LLM, RAG, and Model Evaluation
Platform Architecture | AI Governance | Technology Evaluation and Adoption | Product and Team Leadership

EXPERIENCE

FutureInSites | New York, NY
Principal | Feb 2026 to Present

- Delivered enterprise AI strategy for a $10B+ consumer brand, prioritizing 12 initiatives and designing governance, operating model, and investment roadmap with $400MM to $600MM projected revenue impact.
- Built a governed RAG and Microsoft Copilot knowledge assistant for a $100MM construction firm, with source citations, abstention, unanswered-question logging, team training, and scoped Procore, Buildr, and Sage 300 integrations.
- Created AI prioritization frameworks, architecture recommendations, governance standards, investment roadmaps, and prototype workflows for enterprise clients.

Spirantix AI (501c3 Non-Profit) | Boston, MA
Founder (Part-Time) | Jul 2026 to Present

- Launched Spirantix Concierge, an AI application and LLM Plugin for older adults supporting memory, planning, family stories, and legacy preservation, with member-controlled family and caregiver access.
- Design and build AI tools for senior living operators to draft activity programs, reminders, and follow-up from community data, with reporting across community portfolios.
- Lead classes and online learning on everyday AI, privacy, scams, and misinformation, plus staff training to help communities deliver their own instruction.

MotiveMetrics | Boston, MA
VP of Product and Marketing | Jan 2022 to Jan 2026

- Led a 3-agent ad optimization engine (asset selection, Claude RAG generation, brand review with human approval) on AWS; raised conversion rates 63%, cut cost per conversion 14%, and grew impressions 60%.
- Diagnosed and corrected three post-launch failures in a BERT and K-means segmentation product, reducing embeddings from 768 to 28 dimensions for production scale, saving $50K per month in AWS costs, and implementing an automated quality gate.
- Built and managed product, engineering, and data science teams shipping production ML and LLM systems across MotiveMap.ai (SaaS) and AppX (managed services).
- Shifted the roadmap to negative-keyword automation based on customer demand, cutting the time to research and deploy negatives by 80%, from days to hours.
- Led company-wide SOC 2 certification and owned ML lifecycle governance.
- As Acting GM of Managed Services (Apr 2023 to Feb 2025), achieved the first sustained profitability in company history, with 13 consecutive months of positive margin.

Inmar Intelligence | Boston, MA

Sr. Director of Audience and Media Platforms | Oct 2019 to Dec 2021

- Led product strategy for ShopperSync, a customer data platform unifying identity, transaction, promotions, and activation data for enterprise retailers and brands.
- Led post-acquisition integration of ownerIQ's platform with Inmar's couponing, promotions, and customer data systems, bringing media, identity, and transaction data into one platform.
- Automated audience generation through product feed and retail data integrations, improving scale, speed, and consistency for enterprise retailers and brands.

VP of Platform Management (ownerIQ, acquired by Inmar) | Jul 2013 to Oct 2019

- Led product for an ML-driven decisioning platform spanning identity resolution, real-time bidding, audience modeling, and attribution; managed data science staff with dotted-line leadership of engineering.
- Directed architecture for real-time identity resolution and decisioning, balancing large-scale data processing with sub-60 millisecond execution across 20+ ad exchange integrations.
- Launched and scaled a 200MM+ US consumer identity graph, adding CRM data and mobile identifiers to enable cross-device resolution and offline purchase attribution.
- Reduced fraud rates over 70% while raising viewability and compliance, and redesigned pacing algorithms to stabilize delivery under channel, media type, and KPI constraints.
- Built a self-service marketplace where clients could explore, compare, and request data segments, increasing adoption of retail data.

Nelnet | Paramus, NJ

Managing Director, Marketing Services & Inquiry Generation | Dec 2009 to Jun 2013

- Led a $35MM performance marketing business and 50+ person organization with full P&L responsibility, connecting marketing services, client services, affiliate management, and contact center operations.
- Applied multivariate testing to web and mobile landing page optimization and developed ROI models for SEO and content investment, bringing experimentation and measurement into marketing decisions.
- Created EnrollCall, a performance-based product integrating trackable phone numbers into digital campaigns that increased client conversion rates by as much as 40%.

Innovation Ads | New York, NY

VP of Strategy and Business Development | Dec 2005 to Dec 2009

- Led platform growth and monetization strategy across performance marketing channels, contributing to the company's sale to Seaport Capital for $36.5MM.
- Drove expansion of proprietary ad serving and media execution capabilities, improving yield, partner integrations, and campaign performance at scale.

Founder and CEO, Free Scholarship Guide (acquired by Innovation Ads) | Jul 2004 to Dec 2005

- Founded and scaled a profitable online business to $4MM in annual revenue at 10% EBITDA, built on proprietary ad serving and lead generation systems.
- Designed and optimized a monetization platform across media buying, lead generation, and ad serving, improving revenue per user and campaign efficiency.

SELECTED RESEARCH & CONTRACT WORK

Handshake AI | AI Research Fellow (contract) | Aug 2026 to Present

- Evaluate frontier model outputs, conduct source-grounded research, and produce quality-controlled feedback.

micro1 | AI Model Trainer (contract) | Aug 2026 to Present

- Produce quality-controlled feedback for RLHF training pipelines.

EDUCATION

Boston College, Carroll School of Management | MBA, AI & Machine Learning (2026)

Vanderbilt University | B.A., International Studies (2000)
