

Greg Loeffelholz

AI Strategy, Product & Platform Leader

Greater Boston, MA | gloeff@gmail.com | 917-407-3833 | linkedin.com/in/gregloeffelholz | futureinsites.com

SUMMARY

AI product and strategy executive with 20+ years scaling data, AI/ML decisioning, advertising, commerce, and enterprise platforms. Four years operating production GenAI and LLM systems at scale with P&L ownership, including RAG, vector embeddings, agentic workflows, NLP intent modeling, ML lifecycle oversight, and SOC 2 governance. Founder & Managing Principal of FutureInSites, an AI Strategy & Engineering firm helping clients move from AI experimentation to measurable business impact through readiness assessment, use case prioritization, ROI modeling, governance, vendor architecture, and implementation roadmaps. MBA candidate specializing in AI/ML and advanced analytics.

EXPERIENCE

FutureInSites | New York, NY

Chief AI Officer & Co-Founder | Feb 2026 to Present

- Co-founded AI Strategy & Engineering advisory helping enterprise leaders, investors, and strategic teams move from AI experimentation to measurable business impact through readiness assessment, use case prioritization, governance, vendor architecture, implementation roadmaps, and AI workflow builds.
- Built Enterprise AI Strategy offering focused on ROI-driven AI roadmaps, including capability heatmaps, value vs. complexity prioritization, build/buy/partner decisions, governance models, phased investment plans and prototype AI workflows.
- Developed full-scope AI strategy for a \$10B+ premium athleisure brand, including competitive benchmarking, 12 AI initiatives, governance structure, and a three-pillar roadmap projecting \$400M to \$600M revenue impact.
- Authored AI investment and strategic diligence case work on Oracle and Alphabet, modeling AI infrastructure economics, Search and Cloud monetization, capex/D&A impacts, competitive exposure, and valuation implications.

MotiveMetrics | Boston, MA

VP of Product and Marketing | Jan 2022 to Jan 2026

- Led an AI-driven enterprise marketing platform spanning ML, LLM workflows, and high-stakes paid search, owning product and platform direction for \$100MM+ in monthly paid search spend where model effectiveness directly drove customer ROAS and company margin.
- Led development across LLM-based systems leveraging RAG architectures, vector embeddings, agentic workflows, and NLP intent modeling to drive commercial outcomes through MotiveMap.ai (SaaS) and the AppX automation platform.
- Drove the Managed Services business to sustained profitability for the first time in company history as Acting GM from April 2023 through February 2025, maintaining positive margins for 13 consecutive months while operating production AI with full P&L ownership.
- Set product direction for LLM-driven optimization workflows by evaluating tradeoffs between automation and user interaction, implementing human-in-the-loop solutions matched to complexity, reliability, and performance impact.
- Owned ML model lifecycle governance, platform reliability, and enterprise SOC 2 compliance, meeting customer security and responsible-AI standards.

Inmar Intelligence | Boston, MA

Sr. Director of Audience and Media Platforms | Oct 2019 to Dec 2021

- Led retail media and commerce data platform integrating identity, promotions, and activation, defining product strategy and platform direction for ShopperSync, unifying retail media, programmatic activation, incentives, promotions, and transaction data into a single platform.
- Expanded audience creation and attribution by integrating digital couponing, promotions, and product feed data, enabling automated, commerce-driven audience generation.
- Scaled enterprise adoption by extending identity and measurement workflows across retailer and brand use cases, improving usability and platform coverage.

VP of Platform Management and Data Products (ownerIQ, acquired by Inmar) | Jul 2014 to Oct 2019

- Led a programmatic data platform spanning identity, RTB infrastructure, ML-driven decisioning, and cross-channel attribution; owned data products and ML-driven systems powering real-time bidding, audience modeling, and cross-channel attribution at scale across 20+ ad exchanges, 10+ DMPs, and multiple DSPs.
- Directed architecture for real-time identity resolution and bid decisioning, balancing large-scale data processing with sub-60 millisecond RTB execution time.
- Launched and scaled identity graph of 200MM+ US consumers and cross-device initiatives supporting path-to-purchase reporting, offline-online attribution, and targeting at scale.
- Built and scaled systems reducing fraud rates over 70% while raising platform viewability and compliance, and led development of advanced pacing algorithms incorporating channel, media type, and KPI constraints into real-time bidding automation.

Transcend Media | Boston, MA

VP of Marketing and Business Development | Jul 2012 to Jun 2014

- Helped launch Boston performance marketing agency with executive leadership across operations, marketing, and business development; contributed to Inc. 5000 recognition at #255 in 2013.

Nelnet | Paramus, NJ

Managing Director of Marketing Services and Inquiry Generation | Dec 2009 to Jun 2012

- GM with full P&L responsibility for a \$35MM annual revenue business and leadership of a 50+ person organization delivering omni-channel performance marketing solutions to higher education clients.
- Built and developed product and analytics teams from the ground up, mentoring team members who advanced into senior roles across product, marketing, and leadership positions.

Innovation Ads | New York, NY

VP of Strategy and Business Development | Dec 2005 to Dec 2009

- Led platform growth and monetization strategy across performance marketing channels, contributing to the company's sale to Seaport Capital for \$36.5MM.
- Drove expansion of proprietary ad serving and media execution capabilities, improving yield, partner integrations, and campaign performance at scale.

Founder and CEO of Free Scholarship Guide (acquired by Innovation Ads) | Jul 2004 to Dec 2005

- Founded and scaled a profitable online business to \$4MM in annual revenue at 10% EBITDA, built on proprietary ad serving and lead generation systems.
- Designed and optimized monetization platform across media buying, lead generation, and ad serving, improving revenue per user and campaign efficiency.

Keypath Education | New York, NY

Director of Online Operations | Jun 2003 to Jul 2004

- Led technology operations, partner integrations, and media buying for early digital direct response campaigns; supported transition from offline acquisition to digital channels.

Virtumundo | Kansas City, MO

Manager of Media Buying | May 2001 to Jun 2003

- Promoted from Media Buyer to lead a team of 6 to 8 running large-scale performance marketing campaigns recognized nationally for innovations in rich media.
